To:

Commissioner for Patents,  
P.O. Box 1450 Alexandria,  
VA 22313-1450 USA

Dear Miss Nancy or other officer in duty, Commissioner Patent's office,

I am Baojia Huang, the patent applicant and patent holder of "Vehicle Collision Avoidance System and Method". The patent number that has been published is "7089114", and the patent application number is "10/613,885". As we talked tonight, the patent certificate you sent to me I still did not receive so far, due to a miss-printed error on the street number of my current address in Chengdu, China. (There "Number 5" on the mailing address sent by your office was misprinted as "Number S" on your mail and hence being returned by the post office of Chengdu, China)

Based on your instruction per our conversation, I am here to write you a petition - this letter, to request you to send me another copy of my patent certificate, while I already sent you a filled "A Correspondence of Address Change" form three months ago, by which a very clear address has been provided, please find it out kindly.

Again, my current address is:

Room 416, Building A  
Number 5, Gaopeng Road,  
Innovative High-tech Development Zone,  
Chengdu, 610041  
P. R. of China

I appeal desperately that, the sending of this patent certificate has been delay by 4 months, I am dying for it. Please help!!!  
Best wishes!

Sincerely yours,

*Baojia Huang*
